A warm friendly country atmosphere awaits you in our Cape Cod house located on the side of a hill situated on 15 acres, overlooking neighboring horse farms and our beautiful new pond. Our pond is available for fish feeding, peddle-boating or sitting on the benches and admiring the flowers. We are secluded, yet close to a wide variety of attractions in the area. In nice weather, you can just sit back and relax on a rocker on our 40 foot front porch, from where deer, turkey and other wildlife are seen almost daily. In cooler times you are welcome to sit in the living room in front of our cozy fire.

We offer 6 large air-conditioned bedrooms with private bath and refrigerator in each room. The upstairs rooms are separated by a private sitting area and deck overlooking the patio, goldfish pond and backwoods. A full country breakfast is provided with home baked goodies.

In warm weather breakfast can be served on the front porch or patio. Iced tea is available anytime.
